“YOUR HOMETOWN FIRE DEPARTMENT”

Hutto Fire Rescue is recruiting volunteers!

About Hutto Fire Rescue: The fire department serving the City of Hutto and the Hutto community has grown from an all-volunteer fire department into a combination paid/volunteer fire department in a very short time period. This fire department evolution, which would normally take many years to complete, has occurred in less than 10 years. This transition from volunteer to combination has been driven in part by both population increases and demands for service requests.

Hutto Fire Rescue serves a 63 square mile area of Central Texas which has experienced an explosive population growth. As of the 2000 United States of America Census, Hutto had a population of 1250 persons with an estimated population in the coverage area for Hutto Fire Rescue of approximately 5,000. But by the end of 2005 the City of Hutto population was estimated to be over 12,000 and the Hutto Fire Rescue coverage area to be over 32,800. Current population estimates now show the City of Hutto at approximately 17,500 people while the service area for Hutto Fire Rescue is estimated to be 39,000 people. By the year 2030 population projections for the City of Hutto are over 60,000 with the entire Hutto Fire Rescue coverage area at around 80,000. This unprecedented growth is driven in large part by the construction of State Highway 130 (SH130) thru Hutto. SH130 parallels the Interstate Highway 35 corridor which runs thru Austin and Central Texas. Williamson County in general and the City of Hutto in particular have been recognized as one of the fastest growing areas in Texas. This growth trend is not expected to slow for many years to come.

“Thank you” for considering Hutto Fire Rescue to serve as a volunteer in the Hutto community. Our volunteers are instrumental to how we deliver our service to the public during what can be considered the “worst day of their life” – an emergency. We depend on our volunteer firefighters with our lives and that is why it is our utmost concern that you consider your volunteer service “seriously.” Due to the long and unpredictable hours required to be a member of this organization, we ask that your family and employer support your efforts. So please take the time to discuss your decision with them

An application to be a volunteer member with Hutto Fire Rescue can be obtained at our website, or by picking one up at the station. Upon receiving your completed application, we will review it and contact your references. You will be notified whether you are eligible to proceed in the volunteer membership process. These procedures take time, so please be patient.

Completed applications should be returned to the Administrator at Hutto Fire Rescue between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday. Once again, thank you for your interest in volunteering!
